

# NRD *Network RF Relay*

The NRD is a intelligent RF repeater allowing the extended radio communication from M2 and M1B radios. This communications network is actively managed from the G2 Central or G2 Mobile software.

## Net-Relay Features

- Psion Workabout Pro handheld
- High performance RF reception of M2 endpoint radios (water, gas or electric).
- 2-Way RF communications with G2 Central or G2 Mobile.
- Full two-way control and frequency agility allow for network management. Remote configuration from G2 Central or G2 Mobile.
- Can be utilized in hybrid system operations in conjunction with the G2 Mobile System.
- On-site M2 datalogging still available through G2 Mobile.
- AC power, solar or battery options
- Unlicensed ISM band (900 MHz) operation
- Simple whip antenna and small packaging allow for simple pole or wall installation.

## Specifications

Frequency:	900 Mhz ISM band
FCC compliance:	Part 15.247 (unlicensed)
Temperature:	-40°F to 158°F (-40°C to +70°C)
Humidity:	IP-67
Power Options:	3.6V Battery Pack Solar 120 Vac or 12Vdc
Dimensions:	7.87W x 5.5H x 1.69D in 200W x 140H x 43D mm
Weight:	2.1 lb (0.95 kg)
